

ZAGROS VITOSHA

BULGARIA LTD. | POLYMERS & COMMODITY TRADE

INTERNATIONAL TRADE & SUPPLY

DIRECT SOURCING & EUROPEAN DISTRIBUTION

Recycled polymers, virgin petrochemical materials and industrial diesel sourcing for international and European industrial buyers.

POLYMERS

PETROCHEMICALS

DIESEL FUEL

ABOUT ZAGROS VITOSHA

RELIABLE AND RAPID ACCESS TO QUALITY RAW MATERIALS

Zagros Vitosha manages direct European distribution, strict quality verification and end-to-end commercial logistics.

WHAT WE DO

- Produce and distribute quality recycled polymers for the plastics industry
- Supply virgin polyethylene (PE) and polypropylene (PP) from leading petrochemical producers
- Supply industrial diesel fuel to exact specifications (sulfur content below 2,000 ppm)
- Provide technical guidance and grade selection tailored to client production lines
- Handle commercial, customs, and export compliance documentation for the European Union
- Coordinate international land freight and maritime container transportation

OUR CORE FOCUS

01 PRODUCT QUALITY

Rigorous laboratory inspection and testing against agreed client specifications.

02 COMPETITIVE PRICING

Direct producer pricing reflecting ordered volumes and transparent delivery terms.

03 LONG-TERM PARTNERSHIP

Responsive coordination and reliable schedule execution for ongoing cooperation.

WHY ZAGROS VITOSHA

- **Direct order placement** without unnecessary intermediaries
- **Quality assurance:** every batch is certified by full laboratory analysis (COA)
- **Short lead time:** prompt delivery within 7 to 14 business days
- **Monthly capacity:** up to 400 metric tons across polymer grades

Transparent commercial terms, fixed price commitments, and direct coordination from Sofia.

PRODUCED & SUPPLIED

RECYCLED POLYMERS AND CUSTOM COMPOUNDS

Material selection is carefully matched to processing method, color, MFI, filtration mesh, and end-use application.

PP Red

PE Black

PP White

PP Yellow

PP Blue

PP Green

PP Transparent

PE Light Honey

CORE PORTFOLIO

- **Recycled PP:** white, grey, blue, green, yellow and red
- **Recycled PE / LDPE:** transparent, black, dark honey, light honey and customized blends
- **PP & PE Compounds:** engineered to exact customer specifications
- **Suitable for:** injection moulding, film blowing, woven sacks, straps and technical parts

QUALITY PARAMETERS CONTROL

MFI • COLOR • MESH FILTRATION • PACKAGING

**SOURCED & TRADED**

PETROCHEMICAL MATERIALS AND DIESEL SUPPLY

Commercial offers are issued against exact specifications, volume, destination and delivery terms.

PETROCHEMICAL MATERIALS

- Virgin polypropylene grades (PP Homopolymer & Copolymer)
- HDPE, LDPE and LLDPE prime grades
- Packaging selected for route and customer requirement
- *Supply depends on weekly petrochemical offers and market levels.*

DIESEL SOURCING

BUYER SPECIFICATIONS LEAD EVERY FUEL INQUIRY

- Specification and origin review before quotation
- Inspection and supporting documents (SGS or equivalent) as agreed in contract
- Bulk logistics coordinated for approved port or terminal route
- Price and availability confirmed case by case

No fuel grade is represented without its supporting specification and transaction documents.

INTERNATIONAL REACH

TRADE COORDINATION ACROSS CONNECTED MARKETS

Zagros Vitosha supports cross-border European & regional supply with full customs & quality documentation.

TARGET MARKETS

EUROPEAN UNION
TÜRKIYE
MIDDLE EAST
CIS COUNTRIES
ASIA & AFRICA

Additional destinations evaluated by product, route, compliance and feasibility.

HOW WE WORK

01 INQUIRY & SPECIFICATION

Buyer defines material, grade, quantity, packaging, and destination port.

02 SOURCING & QUALITY REVIEW

Zagros Vitosha coordinates batch inspection, verified samples, or COA documentation.

03 OFFER & CONTRACT

Parties confirm firm price, Incoterm (DAP, CFR, EXW), payment, and shipment schedule.

SCAN TO VISIT

PRODUCT TECHNICAL DATASHEETS

RECYCLED PP WHITE & RECYCLED PP TRANSPARENT

High-quality recycled polypropylene granules for injection moulding, extrusion and technical packaging.

RECYCLED PP WHITE

INJECTION GRADE

HIGH QUALITY RECYCLED POLYPROPYLENE

Sample Granules

Material:	Recycled Polypropylene (PP)
Color:	White (Opaque)
Form:	Granule
MFI:	10 – 12 g/10 min (230°C / 2.16 kg)
Density:	0.90 g/cm ³
Impurity PCT:	Low (Clean & Consistent)
Packaging:	25 KG Laminated Bags / Big Bag
Features:	Good processability, consistent quality

PRIMARY INDUSTRIAL APPLICATIONS:

Storage Bins • Automotive Parts • Plastic Chairs • Laboratory Trays • Woven Sacks

RECYCLED PP TRANSPARENT

EXTRUSION & TEXTILE

HOMOPOLYMER WITH HIGH CLARITY

Sample Granules

Material:	Recycled Polypropylene (PP)
Type:	Homopolymer
Color:	Transparent & Colorless
MFI:	6 g/10 min (230°C / 2.16 kg)
Density:	0.90 g/cm ³
Impurity PCT:	Filtered, low & consistent
Packaging:	25 KG Laminated Bags / Big Bag
Features:	Suitable for textile and flexible applications

PRIMARY INDUSTRIAL APPLICATIONS:

Textile Products • Flexible Parts • Clear Packaging • Containers

PRODUCT TECHNICAL DATASHEETS

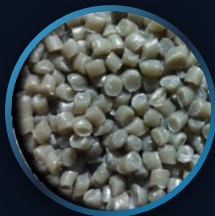

RECYCLED PE DARK HONEY & RECYCLED LDPE LIGHT HONEY

Cost-effective and flexible polyethylene granules for blow molding, pipes, liners and packaging films.

RECYCLED PE DARK HONEY

MOLDING & EXTRUSION

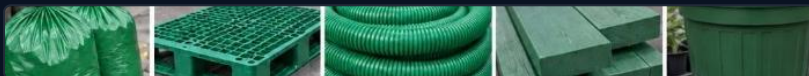

COST-EFFECTIVE MATERIAL FOR INDUSTRIAL PARTS

Sample Granules

Material:	Recycled Polyethylene (PE)
Color:	Dark Honey / Amber
Form:	Granule
MFI:	Customized / Specified by buyer
Density:	0.92 – 0.95 g/cm ³
Impurity PCT:	Low (Clean & Consistent)
Packaging:	25 KG Laminated Bags / Big Bag
Features:	Good processability, high impact strength

PRIMARY INDUSTRIAL APPLICATIONS:

Waste Bags • Plastic Pallets • Cable Conduit • Plastic Lumber • Nursery Pots

RECYCLED LDPE LIGHT HONEY

FILM GRADE

HIGH FLEXIBILITY & TENSILE STRENGTH

Sample Granules

Material:	Recycled LDPE (Nylon)
Color:	Light Honey
Form:	Granule
MFI:	Customized / Specified by buyer
Density:	0.92 g/cm ³
Impurity PCT:	Clean, fine filtered
Packaging:	25 KG Laminated Bags / Big Bag
Features:	High flexibility, superior elongation

PRIMARY INDUSTRIAL APPLICATIONS:

Packaging Bags • Industrial Liners • Shrink Film • Protective Covers

PRODUCT TECHNICAL DATASHEETS

RECYCLED LDPE TRANSPARENT & LDPE NYLON BLACK

High-grade low density polyethylene for film extrusion, agricultural sheets, and heavy-duty industrial molded parts.

RECYCLED LDPE TRANSPARENT

PREMIUM FILM

PREMIUM FILM GRADE FOR PACKAGING

Sample Granules

Material:	Recycled LDPE (Nylon)
Color:	Premium Transparent (Clear)
Form:	Granule
MFI:	Film Grade (Customized)
Density:	0.92 g/cm ³
Impurity PCT:	Very low inclusions, fine filtered
Packaging:	25 KG Laminated Bags / Big Bag
Features:	Superior clarity, high elongation

PRIMARY INDUSTRIAL APPLICATIONS:

Packaging Film • Bubble Wrap • Stretch Hood Film • Protective Sheets • Shopping Bags

RECYCLED LDPE NYLON BLACK

HEAVY DUTY

PUNCTURE RESISTANT FOR HEAVY DUTY USE

Sample Granules

Material:	Recycled LDPE (Nylon)
Color:	Solid Black
Form:	Granule
Basic Material:	100% Nylon Recycled LDPE
Density:	0.92 – 0.94 g/cm ³
Resistance:	High tear, impact, and UV resistance
Packaging:	25 KG Laminated Bags / Big Bag
Features:	Exceptional durability in tough environments

PRIMARY INDUSTRIAL APPLICATIONS:

Pipes & Conduits • Heavy Sheets • Crates & Boxes • Industrial Molded Parts

PRODUCT DATASHEET & COMMERCIAL DESK

RECYCLED PE DRIP TAPE & ORDER SPECIFICATIONS

Specialized extrusion polyethylene for drip irrigation systems and full commercial purchasing terms.

RECYCLED PE DRIP TAPE

DRIP IRRIGATION

DRIP TAPE GRADE | ULTRA-FINE FILTERED

Sample Granules

Material:	Recycled Polyethylene (PE)
Color:	Black / Dark Grey (Customized)
Form:	Granule
MFI:	Extrusion Grade (Customized)
Density:	0.92 – 0.95 g/cm ³
Filtration:	Fine mesh filtered for smooth tape run
Packaging:	25 KG Laminated Bags / Big Bag
Features:	UV stabilized, smooth and tear-resistant

PRIMARY INDUSTRIAL APPLICATIONS:

Drip Irrigation Tapes • Agricultural Pipes • Connectors & Fittings • Profiles

QUALITY ASSURANCE & TESTING STANDARDS

Zagros Vitosha guarantees stable batch quality with full laboratory certificates (COA) for all European deliveries:

Quality Control:	MFI, Density, Moisture, Mesh Filtration
Supply Capacity:	Up to 400 Metric Tons / Month
Packaging:	25 KG Laminated Bags, 1-Ton Big Bags, Palletized
Lead Time:	7 to 14 business days from order confirmation
Trade Terms:	DAP Europe, EXW Sofia, CFR & CIF Global Ports
